TR MBJ KNOCKOUT 104K

We would like to present: **TR MBJ Knockout 104K** IBBA Top 4% for REA.

Introducing out New MBJ young bull destined to make a significant impact, infusing new genetic lines and enhancing hybrid vigor in the world of Red Brangus.

Knockout is a remarkable red bull, son of the renowned Brangus sire IH MR. BAR 607G3, from the esteemed line of IH BAR NONE 820Y8. The semen from 820Y8 has been exported worldwide for its outstanding qualities, with smooth hair, correct structural confirmation, and transferring a lot of natural muscle to its offspring.

Knockout combines the strengths of many breed leaders: SUNDANCE, TRANSFORMER, and SALACOA PINE LASS 23D2.

Additionally, Knockout's paternal lineage has been influenced by the impressive bull IH Rudder 504Y and the productive cow family 607.

Knockout's maternal grandfather is an impressive son of Sureway Legacy 060, from the closely related donor MBJ OB Ms Tranch 392S104, a remarkable daughter of RedBrick 74R2 who won the Grand National Championship in Houston.

MS TR JE 392C2 traces back to the esteemed M&M 74 cow family, establishing its lineage with the M&M cow family, further solidifying this bull's exceptional pedigree.

Knockout is a young bull, but we already have several of his well-red calves, and he is following in the footsteps of his genetics.

Our first semen offering in the U.S. will be at our MBJ & TRIO Red Carpet sale at the Houston Livestock Show 2025.

HURACAN 101H3

Huracan 101H3 is a force as powerful as the natural phenomena he is named after. Beginning with his Red Brangus royal pedigree that brings the World Congress Grand Champion CEO 175C5 together with the dam of Superman, the acclaimed donor 101R1. Huracan is a futuristic sire that blends an ideal skeletal design into a power packed frame that still displays the smooth junctures and extension that distinguishes his 175 lineages. His stride is as fluid and athletic as could be desired. His first calf crop is impressing breeders from across the breed. A dominant force in the show ring, he has been recognized as the IBBA Show Bull of the Year named Grand Champion of the Brangus Futurity, New Mexico State Fair, Jacksonville State Fair and Reserve Grand Champion at the 2022 and 2023 National Show of Merit and 2022 Texas Invitational.

MBJ GR HOUSTON 424H

MBJ GR Houston 424G is our new power wagon that is following the footstep of our MBJ Fireman 266 that comes from our well recognized performance herd. When you factor in this bull's performance, body, bone, and genetics we can be very excited about how much he can help our breed to have more bone, depth, width, masculinity, and more adaptability in a real Brangus phenotype.

MBJ GR Houston 424G is tremendously thick and wide-bodied individual while maintaining balance and structural correctness. He is a son of the renowned MBJ Conan 768C, the sire of GR George 101. His sire is the IBBA National Grand Champion Bar C Bar Prince 30W whose show career also included Grand Champion banners at the Brangus Futurity, State Fair of Texas and Rio Grande Valley Livestock Shows. Conan's dam, Ms Tranch 768SW is an MBJ donor that is a daughter of the Houston National Champion TR Mr Red Brick 74R2 combined with the R2 Ranch powerful cow Ms Excel 768P.

MBJ GR Houston dam 428A2 goes back to the powerhouse Sureway's MS Abe 424/K. Her power shows in all her calves with extra depth, width and capacity needed by our Red Brangus breed.

SHOW RECORD:

- 🏆 2022 San Antonio Livestock Show — IBBA Red Brangus Reserve Champion, Red Brangus Summer Division.
- 🏆 2022 Houston Livestock Show — IBBA Red Brangus Summer Bull Champion.

Houston is the kind of semen you can build a herd around.

MBJ JMTRIO HAVANA 7H

Havana 7H is a truly exceptional individual who is making an impact in herds across the Red Brangus world. He is currently the senior herd sire at M Bar M, where he has completed three years of breeding service, producing tremendous calves on the ground.

From a young age, Havana showed a consistent development in performance, with a majestic, eye-catching presence and impressive dimension from every angle. His paternal lineage comes from Yucca 428B, who carries the influence of National Champion TR Mr Red Brick 74R2. Yucca's maternal lineage is the proven excellence of the 428 family. Havana's maternal influence brings a punch of the foundation line of Buffalo's Miss Highlands 784, which includes the powerful sires Highway, Talento, and Chief Cardinal.

In his show career, Havana was always a contender, leading his division. He awards included Junior Calf Champion at the 2020 IBBA National Show of Merit, Reserve Junior Calf Champion at the 2021 IBBA National Show, Reserve Junior Calf Champion at the 2021 IBBA Texas Invitational and Junior Champion at the 2022 San Antonio Livestock Show.

His phenotypic growth metrics speaks volumes with a wide spread of his growth curve from birth weight to weaning to yearling weights. With his exceptional structural correctness and elements of quality, Havana's genotypic profile reveals a sire that can be used confidently across a program.

MBJ JOHNNY CASH 428J3

MBJ Johnny Cash 428J3 is an iconic rare combination of elite semen sire phenotype and unparalleled genetic predictions, making him a heavily used sire in our Red Brangus program.

He was the 2022 IBBA Houston Livestock Calf Champion. His sire, Fireman, is one of the most exciting young herd sire we've ever raised. He combines the performance and power MBJ Fireman with style and maternal ability of the 428 line.

MBJ dam is the recognized dam SUREWAYS EASY 428S2. Dam of many outstanding Red Brangus individuals. "Trio's CAMBRIDGE 428C2" and is one of the sons of this incomparable highly feminine and fertile individual.

Johnny Cash combines two of the most elite genetics on our ranch to create what we feel is a masterpiece of a bull.

Phenotype and Characteristics

MBJ Phenotypic DNA:

Encapsulates our vision of the ideal bull.

Short Hair.

Excellent Aplomb.

Combination of Power, Depth and Structural Correctness.

Power: Excellent muscle development.

Depth: Pronounced body depth for better meat yield.

MBJ LEDDER 1358J7 HLSR-1814

Scrotal Girth and Carcass Merit

Paternal Line - CX Home Run 135/P

A bull with significant impact on the Red Brangus breed.

One of the most recognized Brangus sires worldwide, bred by Cox Excalibur.

Achievements:

GRAND CHAMPION at the State Fair of Texas.

Has produced Grand Champions internationally, including CX Tank 23T

CX-HOMERUN-135P

Maternal Line - OB MSS LAYLA 1358Z

An outstanding embryo donor for the renowned OB program.

She provides fertility, milk production, muscle mass, body depth, bone structure, and overall dimension.

Her bloodline includes MR CR RED CHIEF 485/M1 and traces back to the Home Run maternal family, MS HS 135F/K.

Fertility

Top 15% in IBBA for Fertility.

MBJ 5 Star Fertility Rating System.

Passed fertility test at just 12 months old.

MBJ Ledger 1358L7

Ledger's modern phenotypic and genotypic dominance raises exciting possibilities for advancing our beef industry.

VSC Lucian 334L1: The Evolution of Power and Balance

MBJ and Mary A Ranch Brangus are proud to highlight VSC Lucian 334L1, a true standout from the Power of the Brands sale. As a premier son of TRIO's MLS "CORTEZ" 175C6 A tremendous Tanque son out of TRIO's WILDFIRE 175W...the two-time IBBA National Grand Champion Female, in 2010 and 2011. Her influence extends through multiple generations of TRIO genetics as the dam of National Champions, sale toppers, donors, and herd sires. Lucian inherits elite growth EPDs and the signature "big-hipped" dimension for which the Cortez lineage is famous. He offers a rare combination of power, adaptability, style, and balanced profile.

TRIO ER Cortez 175C6

His maternal pedigree is equally impressive: sired out of the regal JLS Reba 334G6, he carries the proven genetics of the 2017 IBBA Reserve National Grand Champion, JLS Nicole 334D3. Beyond the numbers, Lucian is a gentleman—completely halter-broken and a proven winner in the toughest yearling classes at Houston and the Texas Invitational. Whether you are looking to add substance to your herd or champion style to your show string, Lucian 334L1 is the high-impact sire for the next era.

TRIO'S KRUGER 175K4

Kruger 175K4 has had a commanding presence since his first days. He is as thick, and square topped with an explosive hip and quarter as any sire we have raised. Breeders will appreciate his huge foot, substantial bone, depth of body and sweeping capacity. Kruger brings this all together in the distinctive quality and style of the 175 family.

Following in his championship legacy, Kruger won Grand Champion of the 2024 Cattlemen's Congress and 2023 National Show of Merit. He also notched Reserve Grand Champion titles at the Brangus Futurity and New Mexico State Fair. All these banners garnered him the award as Runner Up Show Bull of the Year. Kruger is now owned in partnership with Genex Beef and is their new international Red Brangus headliner. Domestically, Kruger will be offered here in the Power of the Brands and the Red Carpet Genetics Sale. His genetic journey is just beginning, and we are going to use him extensively in our program.

Note his 175 herd prefix. His dam is TRIO'S ER Zamy 175Z2, the 2014 IBBA National Grand Champion and Supreme American Female of the Houston Junior Livestock Show. She is the dam of Francisco 175Z2, the 2020 IBBA Reserve National Grand Champion, who sold to Rancho La Miura for \$37,500 in the Genetic Edge. Study another generation back and one finds the incomparable Wildfire 175W and Statesman 100S. Of course, it takes two great parents. Kruger is sired by

TRIO'S ER CORTEZ 175C6

There is a reason why Cortez is referred to as a "Bull Like No Other" ...because of this progeny are like no other.

A modern Red Brangus sire who is moderate and powerful, combining performance and quality in both phenotype and genotype. Cortez is trim and clean in his design, yet maintains breed character and has an ideal sheath. His daughters and sons are top of the crop around the Brangus world. They include his son, Broken A GKB Valdez 841H, the \$68,000 Power of the Brands sale topper, 2023 National Grand Champion, and Show Bull of the Year. Cortez's daughters represent the next generation of elite donors. Among these are:

- The 2022 National Grand Champion GKB Miss Cortez 204J4.
- The 2023 National Grand Champion and Cattlemen's Congress Grand Champion GKB Miss Velvet 204J8.
- Broken A Harlow 841H4, the 2022 Grand Champion at the Texas Invitational and Brangus Futurity, as well as Show Heifer of the Year.
- TRIO's MGS Jabella 700J, the Grand Ultra of the 2022 National Show of Merit and Reserve Grand Champion Ultra Female of the National Junior Brangus Show.

MBJ YUCCA 428B

MBJ Yucca 428B is the sire of MS MJB-JM GATA 236G, the 2020 IBBA Texas Invitational National Grand Champion Female and the 2021 IBBA Reserve Heifer of the Year. Yucca's first progeny have captured the attention of the Red Brangus world and have put him on the fast track to stardom. He is also the sire of Miss OY 225 J4, our top heifer produced in 2022. These progenies are stunning examples of high-quality phenotype and genetics—extra-long, deep-bodied, and stout-rumped, with power, performance, and presence all in one package. This is the first time his semen is being offered for sale. His progeny has proven to exhibit high marbling with tremendous carcass quality.

MBJ Yucca 428B is a son of the renowned three-time Bull of the Year, TRIO's Yucatan 175Y. His impressive phenotype results from the proven mating of TRIO's Sequoia 1125 and Miss Fancy 175/4. Yucatan is the product of generations focused on blending performance traits, quality, and visual appeal. MJB Yucca's dam, 428W, is one of MJB Ranch's top donors from the 428 line and is a daughter of the renowned Sureways Easy 428S2, dam of many outstanding Red Brangus individuals. "TRIO's Cambridge 428C2" is one of the sons of this incomparable, highly feminine, and fertile individual.

PB STRETCH 821/F

PB Stretch 821/F is an exceptional semen and herd sire with impressive growth, performance, structural correctness, and visual appeal necessary to sire superior offspring. The dam of PB Stretch 821/F was the IBBA Show Cow of the Year twice. Stretch now serves as an MBJ herd and semen sire, and he is a remarkable bull that will become more prominent in our breed in the coming years. The 821 family is renowned for their performance, dimension, and balance. Moreover, the sire of 821/F is the National Champion Dos XX's Stretch.

Stretch's calves are outstanding, featuring perfect frames, strong top lines, and exceptional power with bone, mass, and shape, all in one attractive package. At the Houston Livestock Show this year, we will be presenting three of his show heifers.

Stretch Dam MISS CLARK CATTLE 821 has made her own mark in programs across the nation. Miss Clark was the IBBA Show Cow of the Year twice. She is an exceptional donor, known for her ability to produce offspring with remarkable symmetry and balance. Even without knowing much about cattle, one can walk into the pen and recognize her as the Show Animal of the Year.

SHOW ANIMAL OF THE YEAR:

2016 » MISS CLARK CATTLE 821

MCRTRIO'S TURBO 600/9

Turbo 600/9 has not only met our expectations but is exceeding them as calves have begun to develop. He offers tremendous shape of muscle, length, and extension in a performance-oriented, moderate frame. The structure in his calves is big and bold. He has established himself as one of the up-and-coming sire prospects, with breeders taking notice of him. TRIO's Kruger 175K4 is a prime specimen of the power and quality Turbo sires offer. His daughters exhibit tremendous capacity, natural skeletal width, and strength of design. Cattlemen and showmen across the breed are elated by his calves and are experiencing winning results.

In his own career, Turbo received the Grand Champion slap at the 2021 Cattlemen's Congress and the 2020 IBBA Texas Invitational, and then as Reserve Supreme Bull. He has also received the nod as the Reserve Grand Champion at the Brangus Futurity and the National Show of Merit.

Turbo's dam is the picturesque McDonald herd matron Miss McDonald 338/5, a daughter of Marvel's Red Gator 2/6. Turbo is sired by the powerful Dos XX's sire, T-N-T, the Reserve Grand Champion of the 2018 World Brangus Congress.

TANQUE 23/T

Tanque 23/T has done what a breeder of registered seedstock should expect from a truly remarkable herd sire. ...he has consistently outproduced himself, time and time again.

Tanque has sired National Champions in at least five countries: U.S.A., Mexico, Argentina, Brazil and Paraguay. For TRIO and MBJ his influence extends beyond the words can express. He has sired the 2024 IBBA National Reserve Grand Champion TRIO's Karina 175K2, as well as two IBBA National Grand Champion females - TRIO's Yelena 175Y3 and TRIO's Alana 175A3 – along with host of other influential herd matrons. The heir to his legacy is TRIO's ER Cortez 175C6, who is writing his own story with progeny recorded in Argentina, Paraguay, Australia, Mexico and the U.S.A.

Breeders can confidentially plan matings to Tanque to produce herd sires, replacement females and potential future donors - combining calving ease with carcass quality.

RED CASH 84A/Y

Red Cash A/84Y is a heavily muscled, high-volume sire with extra body length and extension that add value. He is a son of Mr. PB Extra Talent 971/10 and the proven, predictable, multigenerational 84 cow family. Red Cash represents proven foundation Red Brangus genetics with optimal breed characteristics for tropical climates, including a slick coat and proper sheath design. Red Cash daughters are highly maternal and efficient in both maintenance and production. His sons have become National Champions in Mexico and premier herd sires, including JM Moneymaker for JM Breeders.

MR MBJ GRANT 77G

MBJ Genetics its known for power, maternal and adaptability. We worked a breeding program to make a bull to help us improve our US show cattle eye appeal and to be used with our performance herd. Grant is out of our elite program and is a tremendous show bull that started the season as Reserve Yearly National Champion at the IBBA Texas Invitational.

MBJ GRANT 77G is Top 20% for birth weight and produce calves that calve easy and stand up quick. He has excellent musde shape, great structure, long neck, a dean front, smooth flat shoulder, and eye appeal. In other words, everything you want in a semen sire to produce show quality calves without losing muscle and power. Very good color, long, long, and beautiful neck!

Grant's sire, COLONEL 175C2 is a full brother of Trio's Yucatan 175 and was Grand Champion of the Oklahoma State Fair and Grand Champion of the Future Reserve Brangus Red Brangus Bull ... Son by Sequoia 112S of TRIO, dam is Fancy 175/4.

His dam, Buffalo's Ms Alane 77C, comes from the respected 77 cow family of the Buffalo Red Brangus program.

Grant is a royally bred semen sire, stacked with some of the most elite genetics in the breed.

VCC Kent 361G3

I've always been impressed by his balance, strong structure, natural muscling, and his ability to transmit power, depth, and style.

VCC Kent 361G3 inherited his style from his renowned sire from the prestigious Mound Creek program, MC Value Added 889E4, and his dam descends from LTD and New Concept, sharing the same maternal line as MC Boulder 889Z14.

Incredible Family Heritage

— Strong genetic ties to our 889 line, known for fertility, calving ease, udder quality, and superior overall calf-raising value.

MC VALUE ADDED 889E4 Sire of Kent

MBJ KANSAS 2K11

MBJ Kansas 2K11, a young bull from our Brangus genetics of VCC lineage that will make history in our MBJ Brangus program. Kansas has a perfect structure, optimal prepuce, long, masculine, a moderate frame, deep and well arched sides, a lot of capacity and musculature that is combined with a lot of style.

The Kansas dam, VCC TAMMY 2F3, belongs to the family of cows that started with 2/1, a certified half-blood, that was selected to produce multiple progeny in the VCC Embryo Transfer Program.

The sire of MBJ Kansas 2K11 is BXR/KCC Outback 1302A13, who is a son of CB Hombre 541T3 and out of a Csonka daughter, Oaks Ms Csonka 1302T. We chose to mate the Kansas dam to Outback for several reasons.

The Convergence of Power and Heritage

Introducing GKB MARSHALL 000M6

MBJ Ranch Brangus and Mary A are thrilled to welcome GKB Marshall 000M6 to our premier Black Brangus semen-sire program. Selected for his rare combination of "big-footed" stability and a loosely made, high-gaining frame, 000M6 represents the pinnacle of our genetic project. He is the definition of the MJB hallmark: slick-haired for maximum adaptability, heavy-boned, and possessing deep, natural muscle.

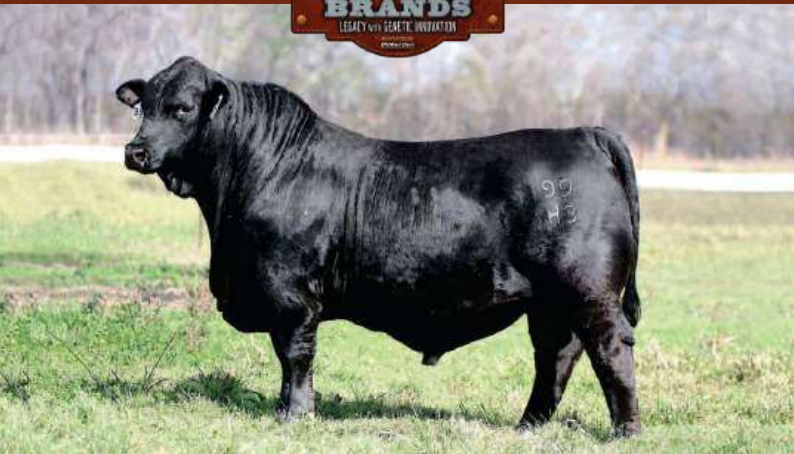

GKB PERFECT STORM 804H20

Pedigree Excellence:

He is sired by the renowned GKB Perfect Storm 804H20, a bull celebrated for structural integrity and carcass merit. However, his maternal side is where history speaks most clearly. His dam, VF MS Game Changer 000B4, is a cornerstone donor from the legendary 000 cow family. Originating in the historic Granada herd, the "000" line is synonymous with predictability and longevity. Generations of these females have anchored the most elite programs in the breed, consistently delivering superior udder quality and maternal reach.

Performance by the Numbers:

Total adaptability with genomic-enhanced EPDs, 000M6 ranks in the Top 10% for Scrotal Circumference, Top 20% for Fertility Index, and Top 25% for Yearling Weight. He is designed to move the needle on reproductive efficiency while maintaining the "power and balance" required to thrive in the Brangus world.

CLVR MBJ HULK EMPIRE 99H3

HULK is an absolute powerhouse in terms of the meat and muscle from nose to tail. Furthermore, he is a huge boned, huge ribbed and stout made, with a lot of muscularity that have been there since the day he hit the ground. We can't wait to see the effect this bull could have in the Brangus to help add extra rib and body. He will be a breed changer, guaranteed.

HULK sire is the tremendous DMR Empire 795D12 that is one of our most exciting young herd sires of the Brangus breed. He is a Proven Three D son at Draggin' M out of the \$29,000 Ms DMR Jethro 795Y2. He is also sire of the \$40,000 DMR Investment 535F40. Empire is producing some of the most uniform calves in the breed that are moderate framed, and stout made. His daughters are coming into production and have a perfect udder design and are easy fleshing.

HULK is also out of a maternal powerline cow that gives an added boost in maternal genetics. His dam CLVR MS NEW VISION 9946 is great daughter of the renowned NEW VISION OF SALACOA 209Y2 and the great 99X9 donor out 99P52. Her maternal siblings have generated over \$200,000 in progeny sales earnings for Clover Ranch after her purchase in the World Series of Brangus sale. She is a maternal sister to the \$16,000 Marlboro and the \$15,000 Treasure bulls. She is sired by Nuff Said and records top 10% WW, 15% YW, 20% REA and top 25% IMF.

TRIO'S MLS ZEUS 175Z4

TRIO'S MLS ZEUS 175Z4 is an outcross Black-Red Gene Carrier sire with applications for both Black & Red Brangus breeders. Sired by the performance sire Hannibal of Brinks and out of the premier Red Brangus donor TRIO's Wildfire 175W. On his own, Zeus is athletic, clean made, heavy muscled with quality that is passed onto his progeny. A well-balanced slate of EPD's with high carcass merit.

MBJ WISEGUY 269W

Wiseguy 26W is a powerfully constructed, moderate framed individual with a well-balanced phenotype. His first daughter was a high seller at the "Genetic Edge" sale in Houston, going to Costa Rica. He will sire clean made, heavy muscled cattle with a slick hide adaptable to a wide range of environments.

His impact on pedigrees has been widespread throughout herd in the U.S., Mexico and Central America. At 10 months of age, he was named Grand Champion at the 2010 San Antonio Livestock Show. His additional accolades include:

- Grand Champion at the 2010 IBBA National Show of Merit
- Reserve Grand Champion at the 2010 IBBA Western National
- Reserve National Grand Champion at the 2011 IBBA Houston Show
- Reserve Grand Champion at the 2011 IBBA Standard of Excellence Show in San Antonio

Sired by the legendary and still impactful sire Lazy 3 Statesman 100S, Wiseguy possesses the same dimension of muscle and structural integrity in a more moderate frame.

Daughter of Wiseguy, TRIO's MLS Yolanda 175Y

Sire of Wiseguy - Lazy 3 Statesman 100S 1108

TRIO'S TRIUMPH 175Z

TRIO's Triumph 175Z2 is a legacy performance sire and one of the best kept secrets of the Red Brangus breed as a sire of performance and structural design. He was the 2009 IBBA Reserve National Grand Champion.

Zoltar, his sire, transmits strong structural soundness with natural base width, body dimension, strength across the topline, and exceptional quality and character. Triumph offers a royally bred pedigree with the proven mating of Lazy 3 Statesman 100S to the legendary matriarch Fancy 175/4.

SR CELEBRATION 75R

Celebration 75R is a proven sire known for adding extra depth, fleshing ability, strong feet, bone, soundness, and overall symmetry. A proven calving ease sire, top 4% ranking for CEM and top 25% ranking for CED. His daughters are his legacy; very feminine, high milking, fertile producers.

Celebration 75R was recognized as the 2007–2008 IBBA Red Brangus Show Bull of the Year. To win this honor he was slapped in 2008 as the IBBA National Grand Champion Bull at the Houston Livestock Show and IBBA Standard of Excellence Grand Champion, San Antonio.

BROKEN A PRINCE 841U

The Quarter Blood sire the Red Brangus breed has been relying on for several generations to develop full purebred 3/8 x 5/8 Red Brangus. Prince is a combination of production and carcass traits to produce first generation Red Brangus. He is described as having a strong phenotype, structural correctness, expression of muscle and performance. His actual yearling metrics were a Yearling Weight 1,120 lbs, 12.26 REA, Adj. Fat Thickness 0.30, Adj. IMF 3.4%.

The 2010 National Grand Champion American Red Brangus bull his dam, R2 Mimi 841P was a prolific donor and dam of four National Champions for Broken A Ranch. His sire M&M Ramrods Gold 30/7 is synonymous with high quality Red Brangus. Three of his full sisters have been ARBA National Grand Champions and become the dams of champions and highly sought after Red Brangus.

JDH MR. MANSO 319-4

JDH Mr. Manso 319-4 is an extremely deep-sided bull with lots of width and thickness.

Top JDH pedigree and International Championship style combines to make 319-4 a top choice for your herd.

JDH Mr. Manso 319-4 is a son of JDH Marri Manso, one of the most expensive bulls ever sold to Brazil, whose progeny are known for their fertility and productivity.

He is also very strong on the dam side with 189/4 being the maternal grandsire. Throughout the Brahman world, his daughters are known as some of the most fertile, good milking females in their herds and countries.

N'OB N'TITANIC 811/4

Mr. N'OB N'TITANIC 811/4 is an exceptional specimen, son of the famous Lajedo OB, who was Grand Champion at the Expoinel in 1989. This bull is well known for his impressive depth and archaemanthus of rib, as well as his height performance and bone strength. He combines outstanding length with exceptional balance and musculature, inheriting the superlative qualities of his father, considered one of the best mochos bulls in the history of the breed.

Strengths:*

- *Recommendations for Use: * Ideal for use in heifers.
- *Umbilicus: * Short, indicative of little predisposition to umbilical hernias.
- *Uberes: * Phenomenal, promotes good.

N'OB N' CORINGA 087/0

JMR. N'OB N' CORINGA 087/0 is a homozygous polled Nelore bull that stands out for its tremendous depth, rib arch, performance and bone. It is the result of the perfect combination between Coringa OB and the donor MISS N' ZOMBARIA OB 912/5, which provides the lineage of the renowned Grand Champion of Uberaba, Lajedo OB. This bull promises to stand out in the main Nelore exhibitions in Brazil due to its excellent conformation and outstanding genetics.

Key Features:

- Low birth weight, ideal for heifers.
- Improvement in weaning weights for more productive breeding.
- Contributes to cleaning navels and improves the size of teats and udders, promoting the health and productivity of offspring.
- Efficient feed conversion for optimal growth with lower feed consumption.

MR. N' FEITIÇO OB 615/8

Mr. N' Feitiço OB 615/8 possesses exceptional traits ranging from its remarkable length and balance to its tremendous musculature, making it stand out in the field of quality cattle. He is a descendant of the famous OB Ordenado, a Grand National Champion in Brazil whose genetic excellence continues to be coveted in breeding programs. OB Ordenado is notable for being the father of the Grand Champion of Uberaba, Lajedo and many animals that made history in Brazil and the USA.

Mr. N' Feitiço's dam is also a distinguished donor at OB Ranch, known for her excellent reproductive and maternal attributes.

Suggested Uses:

- Great Layout: Ideal for breeders looking to improve the temperament of their flock.
- Meat Quality: Improves meat quality, offering superior carcass characteristics.
- Udder Support: Contributes to genetic lines with strong udder conformation, essential for dairy and beef operations.
- Low Birth Weight: Suitable for operations that seek to reduce birth difficulties and promote easier birth processes.

Mr. N' Feitiço OB 615/8 is an exemplary choice for breeders who wish to improve both the functional and phenotypic traits of their cattle.

MR. N' LAIKO 765/06

Laiko is inbred in the Goliath line and until today it is the most modern line with moderate structure and a lot of strength. His daughters are very fertile and produce a lot of milk.

Recommended for:

- Increasing birth weights
- Improving herd temperament
- Producing offspring with excellent feed efficiency and superior meat quality
